We Understand your Requirements

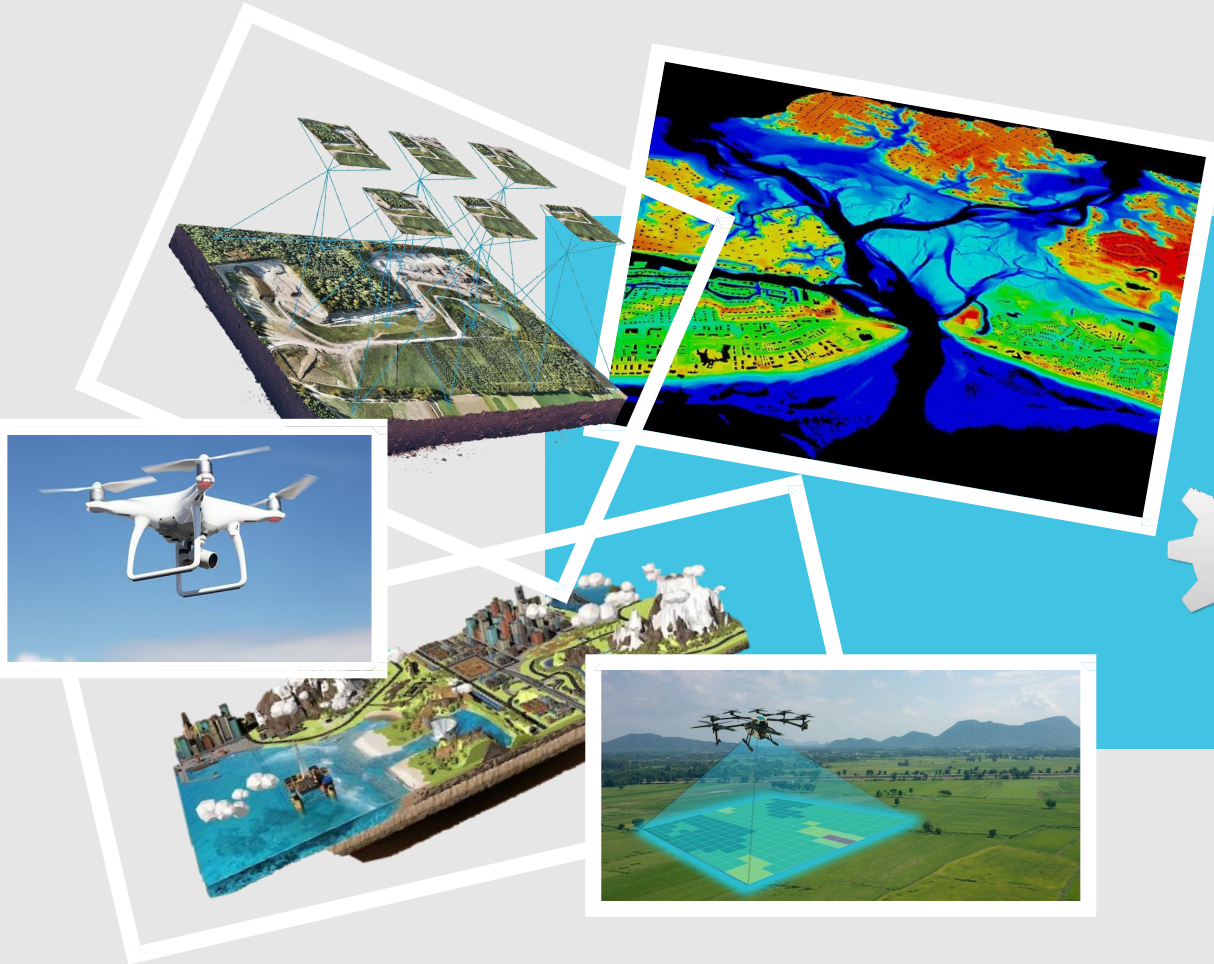

ATOM AVIATION SERVICES

WE UNDERSTAND YOUR REQUIREMENTS

About Us

Atom Aviation Services is a ISO certified MSME recognised by Ministry of Commerce and Industry. Delhi-based company primarily deals into surveys, Drones, Solar inspection, Power line inspection Topographical Survey, Final Location Survey, Helicopter Survey etc.

Specialized in using "Unmanned Aerial System " UAV (Drone) for planning , Monitoring and Management Railway Projects in Different Stages such as proposed/ongoing/ running lines.

National and International project experience using modern survey technologies and best practices since 2015. Technologies such as Satellite Photogrammetric Surveys, Aerial Survey, LiDAR , Geographical Information System (GIS), Remote Sensing and DGPS to collect accurate information and provide various planning studies to its client .

GIS SERVICES

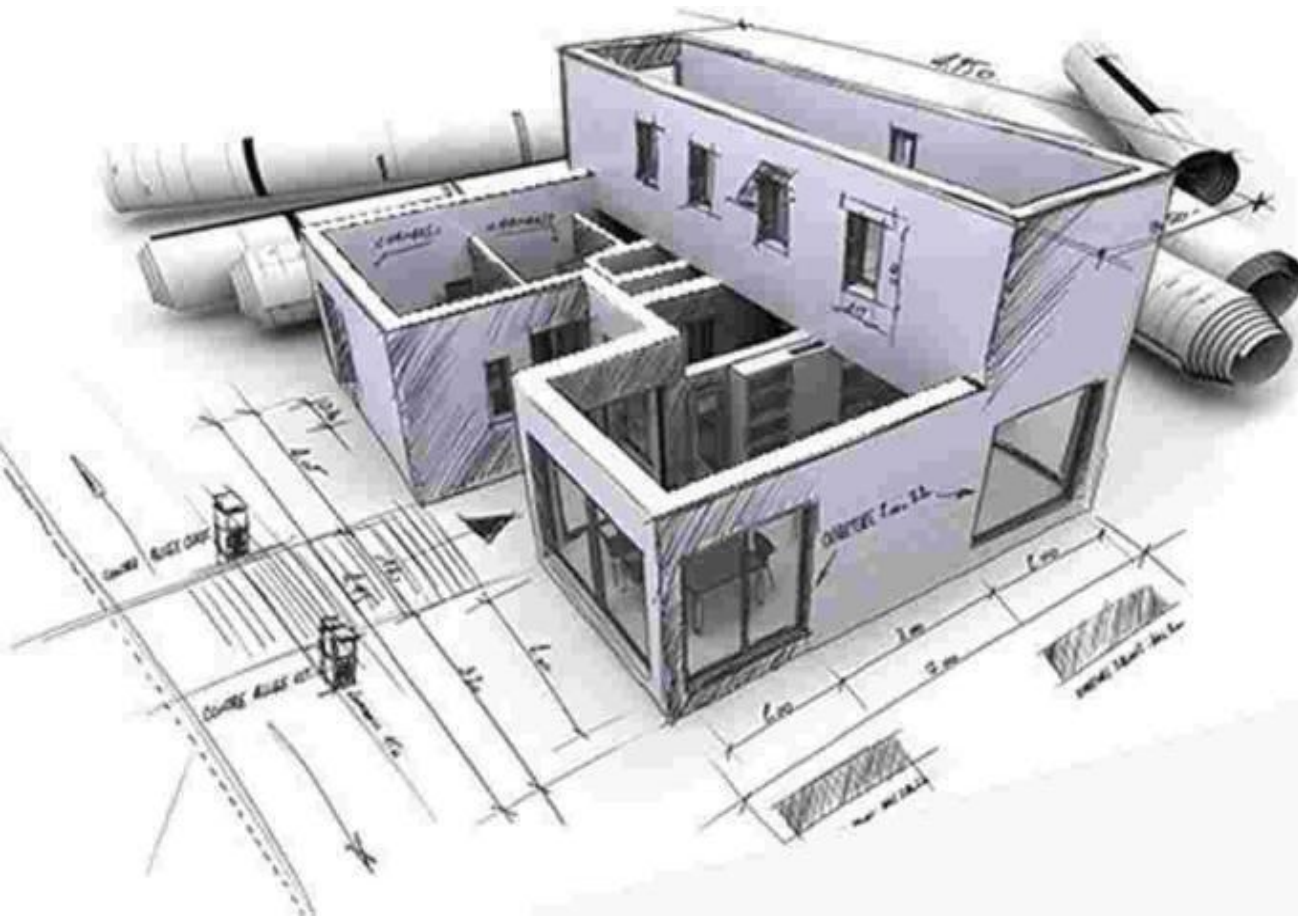

A Geographic Information System (GIS) is one of the best tools which is currently available for managing geographic information. Many sectors are utilizing GIS because it offers a way of understanding and perform multiple analyses, and synthesizing results into maps and reports.

LiDAR Survey

We at Atom Aviation combines LiDAR with GIS data and other survey information to generate complex geomorphic structure mapping products, advanced 3D models/earthwork profiles, rendering of structures, and many additional high value mapping products.

CAD Engineering

We specialized in BIM solutions, 3D BIM modeling CAD drafting service as well as integrated project delivery services. Atom Aviation ensures high level of quality in building services models, drawings and spatially coordinates building structure. We also offer drafting services for under floor heating & cooling and solar panel.

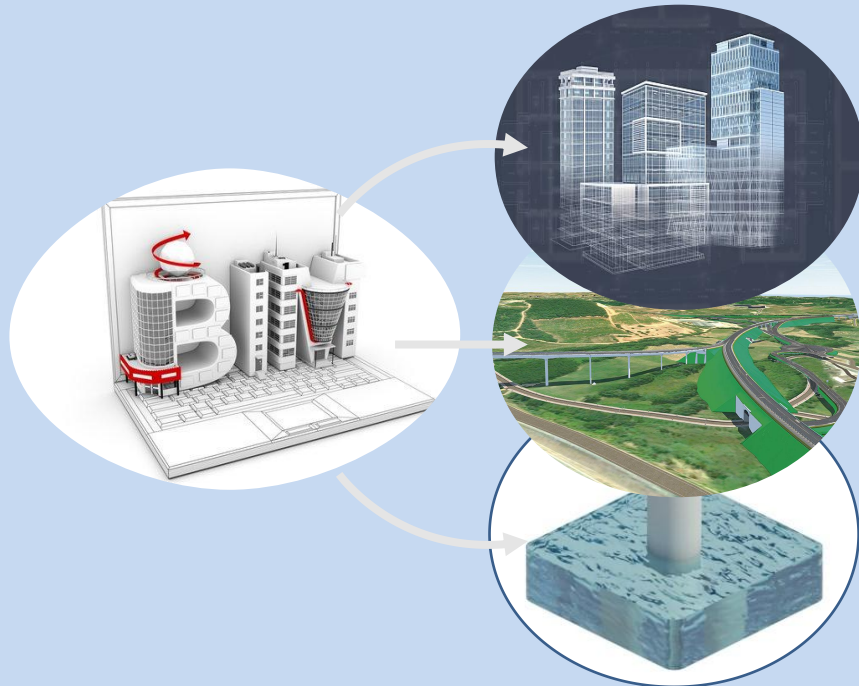

GPR (Ground-penetrating Radar) Survey

Various applications use GPR surveys, including utility mapping, environmental site investigations, geotechnical assessments, and archaeological research. This non-intrusive method provides valuable insights into subsurface conditions without the need for extensive excavation, making it an efficient and versatile tool in the field of geophysics.

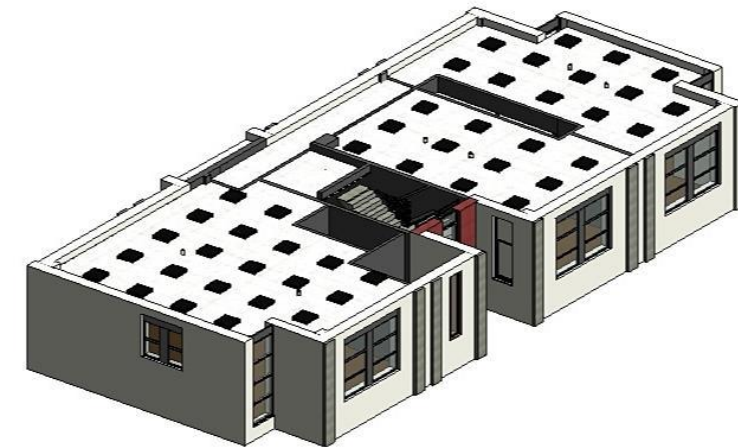

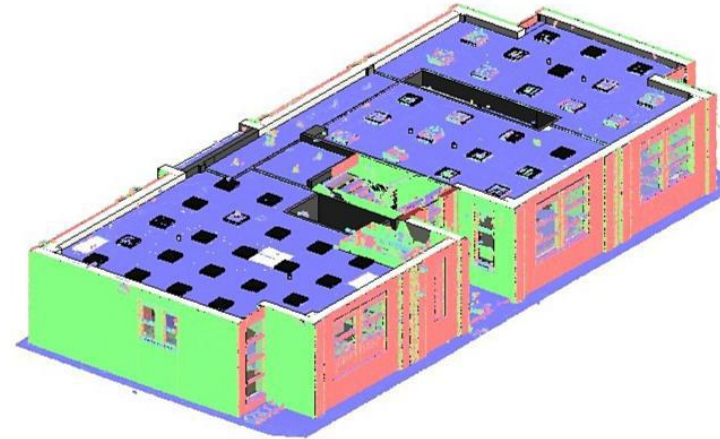

BIM

Atom Aviation Services Private Limited is Leading services provider that offers services like BIM Modelling, Clash detection and Coordination, shop drawing, As-built drawing, BIM 4D/5D/6D simulation, BOQ and schedule generation (LOD 350 and 400) for areas like Residential Building, Hospitality buildings, Commercial, Warehouse, Educational Buildings, Liquid Storage Yard, Aviation Building, Highways, Roads and Tunnel.

OUR SERVICES

- BIM Modeling (LOD 200 to 500)
- Clash Detection & Coordination (LOD 300 to 500)
- Shop Drawings (LOD 400)
- BOQ & Schedule Generation (LOD 400 & 500)
- As-built Drawings (LOD 500)
- BIM 4D/5D/6D Simulation

Surveying Services

Atom Aviation provide a variety of surveying services including wetland delineation, boundary, as- built, tree, topographic surveys, staking of roadway and drainage projects and providing finished floor elevation certificates for real estate closings.

Surveying Services

The Surveying & Mapping services offered by ATOM AVIATION using Total Stations, Auto levels, GPS, Laser Scanners, etc. are:

- Topographic Surveys
- Cadastral Surveys
- Route Surveys
- Utility Surveys
- Urban Planning/Property Surveys
- DGPS Control Surveys
- Engineering Surveys

An aerial photograph of a coastal region. On the left, a wide river flows into the sea. The riverbank is lined with dense urban development, including buildings and roads. The surrounding land is a mix of green vegetation and brownish terrain. The sky is clear and blue.

Our services include:-

- ❖ Bare Ground and Full feature classification
- ❖ Powerline Classification & Vectorization
- ❖ Utilities Corridor Classification
- ❖ Transportation Planning
- ❖ Mobile Mapping
- ❖ 3D Vector Extraction
- ❖ LiDAR Modeling And Meshing
- ❖ DSM/DEM Generation
- ❖ Contours Generation
- ❖ Orthophoto Generation

Our Services Include:-

- ❖ CAD Drafting Services
- ❖ MEP Draftng
- ❖ BIM
- ❖ PDMS (Plant Design Management System)
- ❖ Underfloor Ducting Drafting Services
- ❖ Floor Plans
- ❖ Construction Document
- ❖ Ducting layout
- ❖ Electrical & Piping Modeling
- ❖ 3D Modeling
- ❖ Solar Panel Drafting Service
- ❖ Walk Through Animation
